BREAK FROM THE PACK

Whether you stand out because you're leading the way or because you're paving your own path, Simpson is there to make sure you can race and ride the way you want.

Our gear doesn't just meet standards, it sets them. We're constantly innovating our helmets, restraints, harnesses, suits, gloves and shoes to provide an unparalleled level of comfort, performance and protection.

Racing and riding are more than what you do, it's a part of who you are. We get that, because it's who we are too.

Break from the pack with Simpson.

SIMPSON®

SNELL 2015 RACING HELMETS

Snell SA rating is the most widely accepted standard for racing helmet safety in the world.

The Snell standard is updated once every five years, generally improving helmet protection each time.

Effective October 1, 2015, helmet manufacturers began selling Snell 2015 rated helmets, meeting Snell's latest and most stringent safety standards.

The helmets are clearly marked with the Snell 2015 safety label.

AN OVERVIEW OF THE IMPROVEMENTS TO THE SA2015 STANDARD VERSUS THE SA2010 STANDARD IS EXPLAINED HERE.

SA2015 helmets are equipped with FIA 8858-2010 compliant M6 terminal mounts for head restraints. Head restraints such as the widely used HANS and Hybrid styles have been credited as being the number one lifesaving advance in personal racing safety equipment of the last 20 years.

SA2015 includes provisions for Low Velocity impact testing. For the racer, this test ensures performance in low velocity crashes.

A single helmet is tested in five separate sites on a flat anvil on or above the helmet's test line.

No impact may exceed 200G and the average of the five peaks must not exceed 180G.

SA2015 includes Low Lateral impacts at the intersection of the head form reference and transverse planes. This is the key area around the ear and temple.

The peak G criteria for helmets tested on head forms of less than 60 cm circumference (ISO A-J) has been raised to 300 G and the velocity of the first impact has been increased to 8.5 m/sec. Second impact velocities have been reduced.

The peak G criterion for the ISO M head form remains at 264 G, but the first impact velocity has been increased to 8.0 m/sec.

The second impact velocity has been reduced.

SA2015 certification will require two more helmet samples than SA2010 demanded. One of these is for the FHR testing and the other for the additional impact tests.

Generally racers wear what is required by their sanctioning bodies. Each sanctioning body establishes which standards it will accept and how old the rating can be. Be sure to keep up with your sanctioning body and local track requirements.

CERTIFICATIONS

FIA: The Fédération Internationale de l'Automobile (FIA), Headquartered in Paris, France, is a nonprofit organization that brings together 227 national motoring and sporting organizations from 132 countries on five continents. FIA Formula One World Championship, FIA World Rally Championship and FIA World Touring Car Championship are among the sanctioning bodies who abide by FIA standards. More information can be found at www.fia.com.

SFI: The SFI Foundation, Inc. (SFI) is a nonprofit organization established to issue and administrate safety standards for specialty and performance of automotive and racing equipment. SFI oversees testing and standards for racing suits, restraints and many other high-performance safety products in the United States. NASCAR, SCCA, IRL and NHRA are among the sanctioning bodies who abide by SFI standards. More information can be found at www.sfifoundation.com.

Snell: Snell Memorial Foundation is known for its ongoing work in setting, maintaining and continually upgrading helmet standards in Motorsports in the world. NASCAR, NHRA, SCCA and IRL are among the sanctioning bodies who abide by Snell helmet standards. More information can be found at www.smf.org.

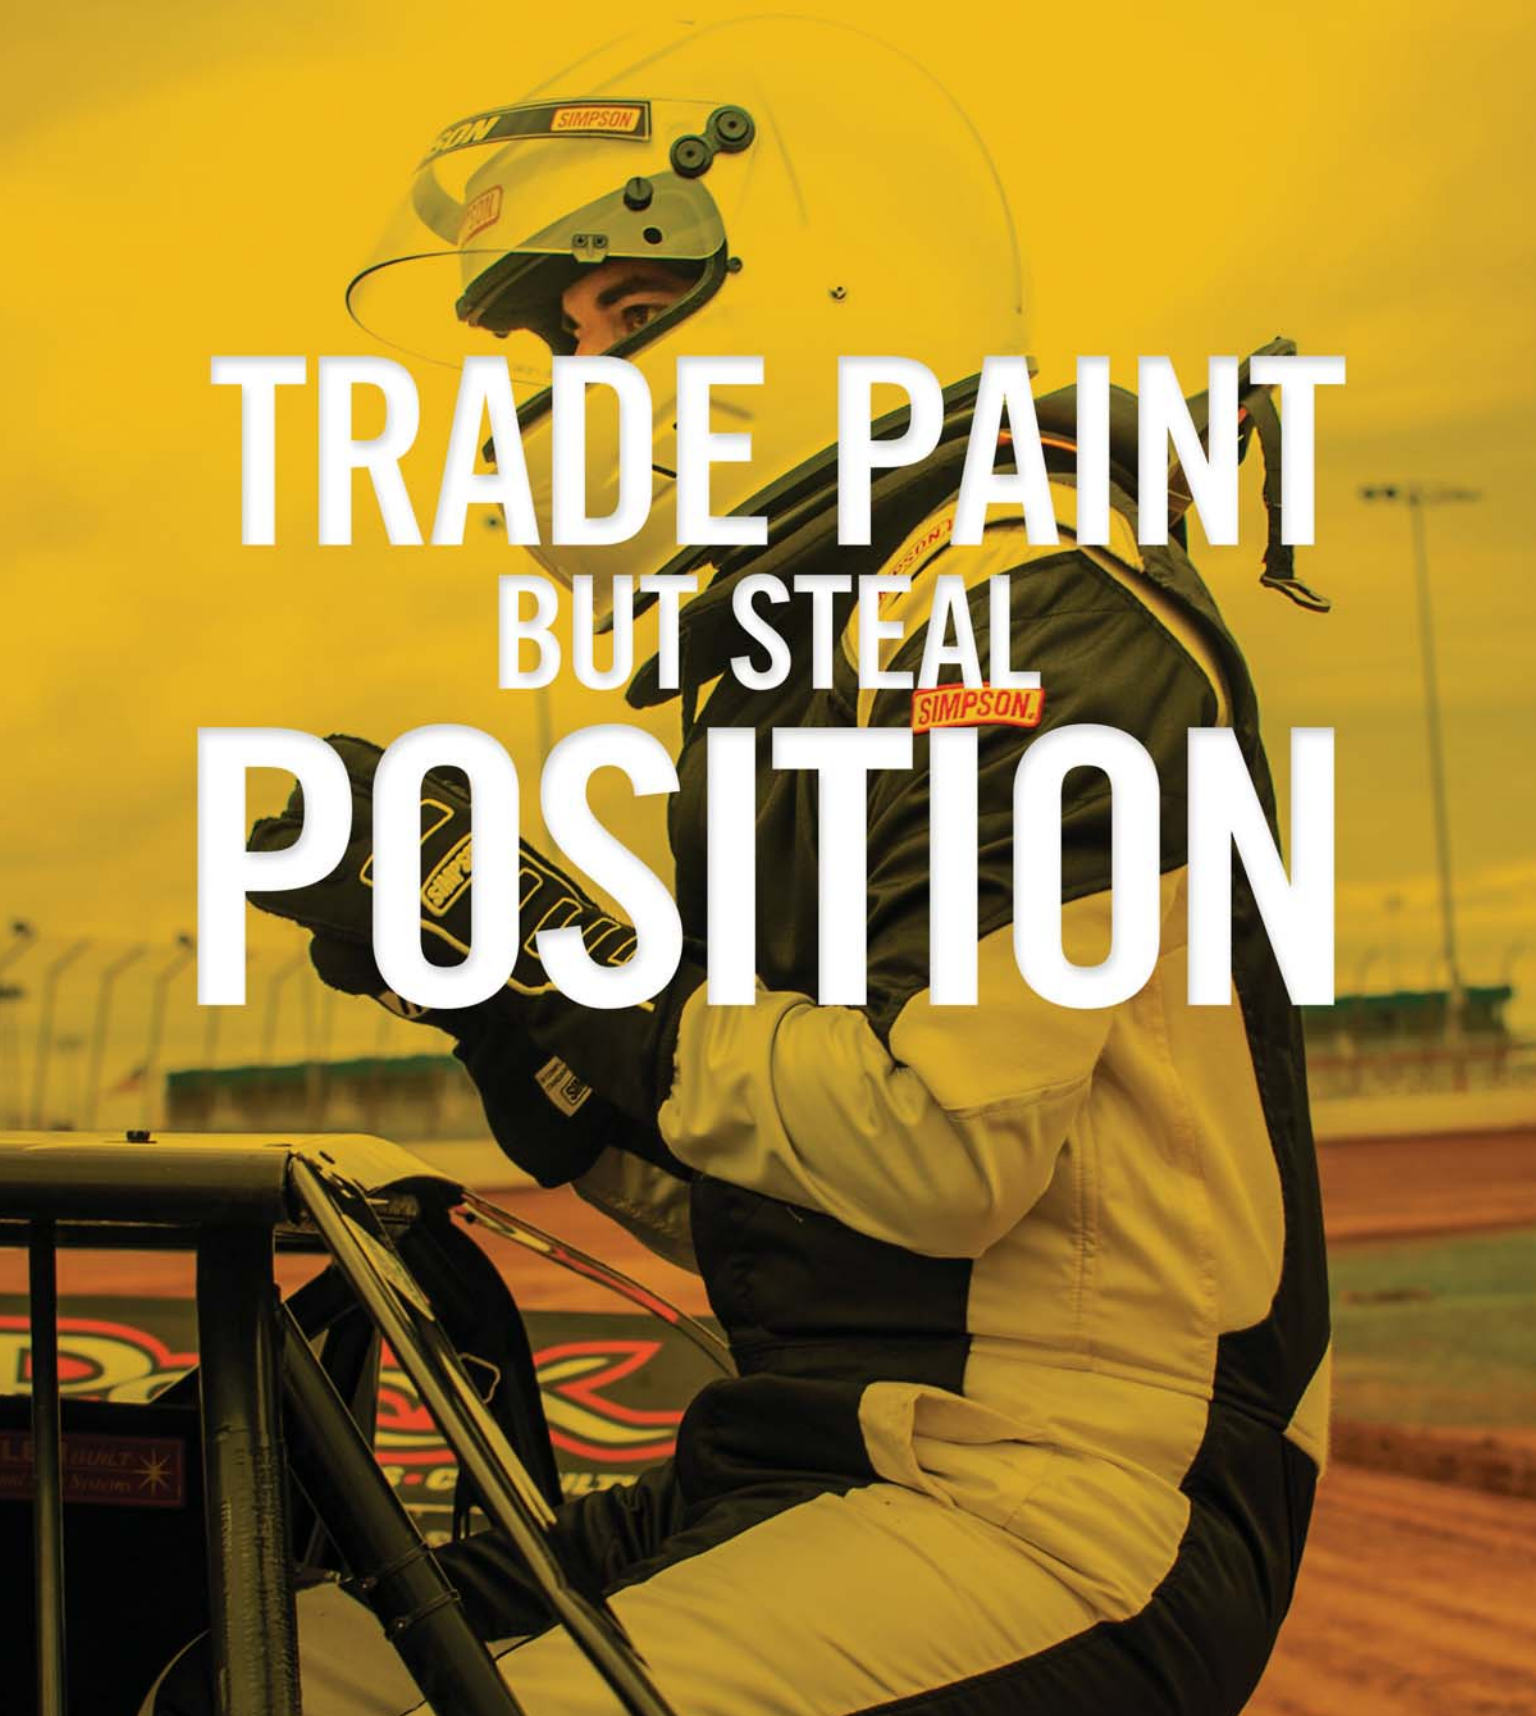

DOT: United States Department of Transportation – meets US DOT requirements for motorcycle helmets.

ECE 22.05: Economic Community of Europe (ECE) is the most common helmet standard used internationally. The ECE 22.05 is required by over 50 countries worldwide.

MEASURING FOR A HELMET

A correctly fitted helmet should feel like an even amount of pressure is being exerted around your head and cheeks. But helmets break in, so it should fit as tight as you can comfortably wear it. Once fastened, you should NOT be able to pull it off your head in any direction. Attention first-time helmet buyers: If your helmet is loose at all, and doesn't fit well, it CANNOT deliver the best protection. A helmet's strict safety standards can be compromised after only one impact collision. If the integrity is in question, send it back to us for proper inspection.

MEASURE DIRECTLY ABOVE THE BROW LINE FOR THE BEST HELMET FIT.

Simpson Recommends Inspection Of Your Helmet After Any Impact Collision.

RADIO COMMUNICATION

Simpson is proud to offer Rugged Radio's exclusive communication technology for Racing Radio Driver and Crew Communication systems. Order your favorite Simpson helmet complete with factory-installed communications equipment. Save time, save on shipping charges. Helmet kit pricing as shown includes installation. Simpson helmets are fully certified to be Snell and/or FIA compliant when equipped with Rugged Radios helmet kit installations. PCI Radios also available for off-road applications. Call us at 800-654-7223.

OFF-ROAD HELMET KIT

Kit Includes Flex Boom,
Helmet Speakers and
3.5 mm Ear Bud Jack

This complete off-road flex boom helmet kit features Rugged Radios' new Dura-Link Sealed Connector, Clear Hear speakers and dynamic noise canceling mic for best audio performance, and 3.5mm input port for music cable or ear buds. The Dura-Link Seal, featured on all Rugged helmet kits, seals the connection between the intercom cable and helmet kit plug. The Dura-Link Seal protects the connection contacts from water, mud and dirt which can affect audio performance and works with current Rugged off-road intercom cables.

HELMET EJECT AND EMS

Simpson's Eject Helmet Removal System is a small air bladder that fits easily into any helmet, without changing its fit or feel. In the event of a crash, First Responders can help reduce the risk of secondary neck or spine injuries by inflating the Eject System which gently lifts the helmet off the head.

EJECT EMT AMBULANCE/TRACK KIT

Complete Eject Kit for track or ambulance contains:

- 3 EMT Helmet Bladders
- 1 Bulb Inflator
- 1 CO2 Inflator
- 4 CO2 Cartridges (16 grams each)
- 1 Track Bag

HEAD RESTRAINTS

**NOW ALL YOU HAVE
TO FEAR IS
LOSING**

SIMPSON
Hybrid
PRO

HEAD RESTRAINTS

WHAT YOU NEED TO KNOW

Why do I need a frontal head restraint system?

Quite simply, head restraints save racers' lives!

If you are unfortunate enough to be involved in an accident during a race and you are wearing a head restraint system, then your seatbelt is likely going to do its job and stop your body from moving forward. The head restraint will do its job and stop your head from whipping forward and placing enormous strain on your neck. A racer's head is made heavier than normal by the added weight of a helmet. Frontal impact in a race car can cause basilar skull fractures which are often fatal and have taken the lives of some of history's greatest racers. Keep in mind that it isn't necessarily how fast you are going but how fast you stop that causes some of the worst injuries.

How do they work?

Both HANS and Hybrid head restraint devices work by using shoulder harness friction to resist forward head movement and ensure proper rotation during rapid forward deceleration.

Do I need to use a specific seatbelt harness?

No, but the configuration of the seatbelt harness is critical and some head restraints are tailored for use with a FHR-specific seatbelt harness.

The shoulder strap mounting points should be even with the shoulders such that the straps make an angle of 10° to the horizontal.

The mounting points must be equally disposed about the user's centreline so that straps spread inward slightly from the mountings and around the FHRs.

This helps to keep the straps firmly engaged with the FHRs.

Which device is right for me?

The HANS is a yoke-style device and the Hybrids use straps, much like a backpack design.

In short, you should choose the device that is most comfortable to you.

Every head restraint device sold by Simpson is certified and approved by either the FIA, SFI or NASCAR.

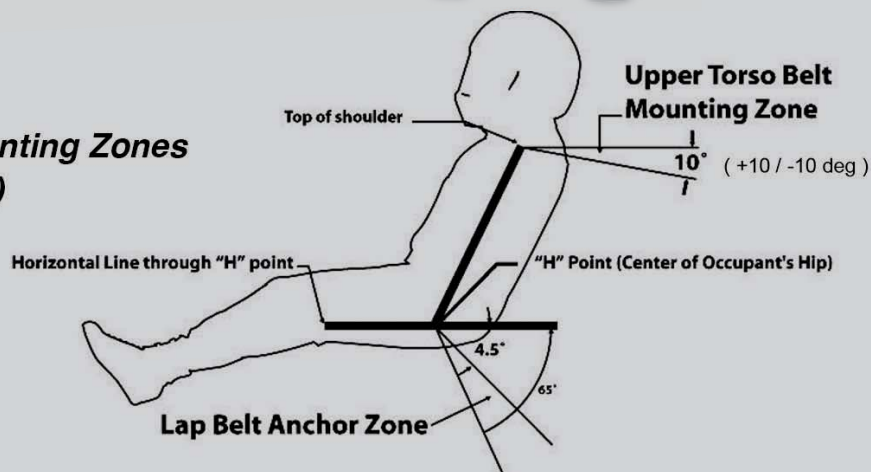

Some devices hold multicertifications.

Our customer service staff is on standby to assist you with fit or to answer any questions.

CALL US AT 1-800-654-7223 FOR HANS AND HYBRID ASSISTANCE.

Restraint System Mounting Zones (Side View)

HYBRID PRO LITE

The Hybrid Pro Lite® is the ultimate in safety and comfort. The Hybrid Pro Lite's new lightweight design and carbon fiber construction provides maximum comfort and maneuverability with superior strength. All of Simpson's Hybrid Series head restraints are designed for easily exiting the car without the danger of being entangled in other gear by offering the lowest profile of any comparable device. This device comes with optional patented SAS (Seatbelt Anchor System) for even greater coverage in flips, barrel rolls and side impacts. When the worst happens, you'll have the same great protection every time.

Simpson's Hybrid S model is currently the only Frontal Head Restraint proven effective for 3-point harnesses, and the device is also FIA and SFI approved. Additionally, in a partnership with Detroit auto manufacturers, the Hybrid S is third party tested to FMVSS208.

The Hybrid S allows high-performance driving Instructors, auto manufacturing test engineers, and other drivers with 3-point harnesses access to the advantages of head restraint safety.

The FIA Hybrid Head Restraint, in conjunction with a Snell or FIA rated helmet and a 3-point harness, reduced neck tension significantly when compared to a test with only a helmet and 3-point harness.

While we can offer head restraint protection for use with 3-point seatbelts, Simpson's top concern is driver and instructor safety. We suggest a Full Containment Cockpit System that includes a Full Containment Seat, Snell or FIA rated Helmet, FIA or SFI approved Frontal Head Restraint, and a 5 to 7-point seatbelt harness system for the best protection while on the track.

FEATURES

- FIA approved, SFI certified
- High-quality carbon fiber construction
- Low profile. No high back to hook on the bars on exit.
- Multiple load paths to dissipate head loads
- Buckle attachment in front. No bulky straps underneath.
- Ships race ready with post clips
- Seat belt anchor system
- Helmet anchors available for upgrade

HYBRID SIZING CHART

CHEST STRAP WITH DRIVING SUIT ON

HOW TO MEASURE

1. Measure around chest below pectoral muscles.
2. Measure with driving suit. If not available add 1" to measurement.
3. Take measurement with tape placed against driver without any slack and without pulling the tape tight.
4. Once measurement has been determined, refer to size charts to device size selection.

Call customer service at **800-654-7223** if unsure.

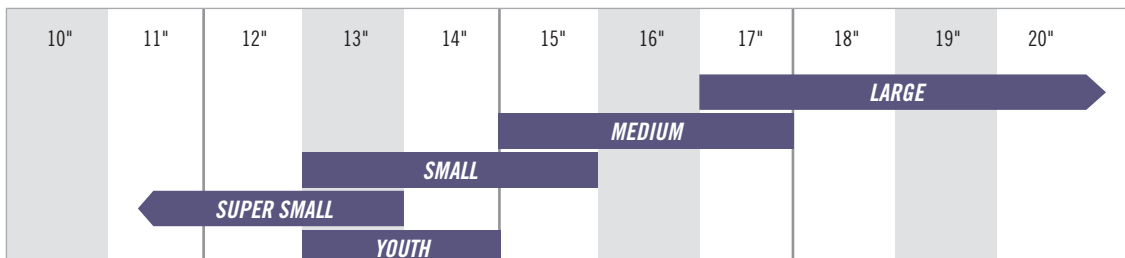

*CHILD AND YOUTH SIZES AVAILABLE IN HYBRID SPORT.

HANS DEVICE SIZING CHART

Neck size is the starting point for fitting a HANS Device.

You may fit several sizes – comfort is the deciding factor. See HANS selection, beginning page 32.

HEAD RESTRAINTS

HANS III

The HANS III represents the third generation of injection molded HANS devices and takes a revolutionary approach to reducing weight. Using an all-new design and polymer, the HANS III features a hollow collar to substantially minimize weight. Engineered reinforcements ensure this HANS offers the same level of safety as every HANS device, while the reduced mass guarantees the lightest, most comfortable injection molded HANS ever. Call for FIA pricing.

YOUTH HANS III

The lightweight HANS III is now available in a Youth size. The SFI 38.1 certified HANS III Youth features a hollow collar that substantially minimizes weight and is engineered for the growing young racer. Reinforcements ensure an exceptionally strong structure that provides the same level of safety as every HANS device.

See sizing chart for recommendations – remember driver comfort is the most important factor when choosing a size.

HANS PRO ULTRA LITE

The HANS Pro Ultra Lite is SFI 38.1 and FIA approved. The Pro Ultra device applies aerospace grade carbon to achieve a 100+ gram weight saving compared to the regular Ultra. The Ultra Lite saves on weight and allows for easy entry and exit from the race car, even smaller, tighter vehicles. The 100% carbon fiber construction features a hollow core for increased weight reduction without sacrificing strength. The sliding tethers offer exceptional visibility. Call for FIA pricing. Upgrade to the Pro Ultra Lite today.

HANS PROFESSIONAL SERIES NASCAR APPROVED

Professional HANS devices are lightweight handlaid carbon fiber. The HANS Professional device is worn by professional racers worldwide, including NASCAR's finest racers like Jimmie Johnson, Tony Stewart and Denny Hamlin. Call for FIA pricing.

FEATURES

The Model 20, our most popular angle, fits upright seats like those found in most sports cars, from Honda to Lamborghini. Fits most stock cars, drag cars, sprints, modifieds and similar. Available in 4 sizes – Super Small (youth), Small, Medium, Large.

The Model 10 fits extreme upright seats like those found in sprint cars. It also is comfortable for some very thin drivers. Model 10 available in size Medium only.

The Model 30 fits laydown seats like some Formula cars. It also is comfortable for larger drivers in sports cars in place of a Model 20. Available in size Large only.

The Model 40 – special order for vintage single seaters only. Available in size Medium only.

RETURNS

Simpson warrants all products to be free from all defects in material and workmanship when used according to the manufacturer's instructions. Warranty does not include damage to the product as a result of misuse, abuse of the product, or normal wear and tear. Simpson will provide a replacement part or product at its sole discretion. Purchaser must assume responsibility for the cost of shipping the product to Simpson for service or inspection. Should any product not meet your expectations for fit, workmanship and quality, please call 1-800-654-7223.

FINANCE YOUR SAFETY PRODUCTS

Simpson Performance Products offers a 3-payment, no interest plan for orders of \$500 and above. A valid credit card is required. One half payment is required at the time of purchase. Call 800-654-7223 for details or check page 107 for a handy financing application. Download the application at teamsimpson.com. Owning quality safety gear has never been easier.

PRODUCT SERVICES & RETURNS

If for any reason you would like to return a product you purchased, or have a product you need serviced or inspected, ship it to Simpson via insured Parcel Post or UPS within 30 days. Please return new products in original condition, in the same boxes with a copy of the invoice to:

Simpson Performance Products
328 FM 306, New Braunfels, TX 78130

CUSTOM SUIT RETURNS

If you need to return a Custom Crew Suit or Crew Uniform for alterations, please send to the following address:

Simpson Performance Products
1407 West 240th Street, Harbor City, CA 90710

SIMPSON FINANCING FOR RACERS

SEE PAGE 107 FOR APPLICATION

Racing can be a dangerous sport, and safety products often fall by the way when purchases for the car and entry fees are more critical. Simpson offers a finance program that helps to make safe racing affordable.

Purchases of \$500 and greater qualify for our generous interest free, 90-day, 3-payment finance program. A new Snell 2015 helmet, the head restraint you know you need and the latest in racing suit technology can all be yours. It is easy to apply and we can often approve you the same day. Turn to page 107 for our simple application. Our safety experts are happy to walk you through the process and get your safety gear on the way to you before your next race.

Call us at 1-800-654-7223.

NOMEX® TECHNOLOGY RACE PROTECTION

DuPont™
Nomex®

PERFORMANCE & CONFIDENCE

Racing professionals can't have one without the other. That's why they wear racing suits made of DuPont™ Nomex® fiber. In fact, 95% of racers around the world trust the protection of Nomex® to keep them safe. It manages extreme heat, yet still delivers incredible comfort, style and durability – giving them the performance only Nomex® thermal technology can provide. Racing suits and apparel made of Nomex® fiber help play a pivotal role in providing the valuable seconds racing professionals need to escape fires that result from both on-track collisions and pit accidents.

BUILT IN

Racing gear made of Nomex® is inherently flame resistant; the FR (flame resistant) protection is built into the fiber and cannot be washed out or worn away – ever. It won't melt or combust when exposed to flame and actually becomes thicker when exposed to intense heat forming a protective barrier between the heat source and the skin.

TRUST

For more than 30 years, DuPont™ Nomex® has been the industry leader around the world in FR protection against the ever-present danger of fires at the racetrack.

95% of racers (NASCAR®, IRL, NHRA, WoO and IHRA) around the world, including their pit crews, rescue teams and track officials, trust and depend on the FR protection of racing suits made with DuPont™ Nomex®.

SUIT TESTING

THERMO-MAN® is the most advanced life-sized thermal burn injury evaluation system in the world today. He can be exposed to various fire hazards through controlled burns to test burn protection properties of garment constructions, fabric weights, material types and garment design styles. Results predict the amount, degree and location of burn injuries that would be sustained by the wearer in a flash fire.

DuPont scientists use this information to help apparel manufacturers develop optimum designs in lightweight, flame-resistant suits that equip drivers, pit crews, rescue teams and track officials with garments that are comfortable and provide the best thermal protection possible.

LEARN MORE AT WWW.DUPONT.COM/NOMEX

DuPont™ Nomex® is a trademark of E.I. du Pont de Nemours and Company

CUSTOM MADE-TO-ORDER RACING SUITS

Our Made-To-Order custom racing suits are made to order per your exact specifications at our factory in the USA. They are SFI approved and feature genuine DuPont™ Nomex® fabric. Our suits provide protection and comfort from over 14 measurements that are uniquely yours for a true custom fit. Our custom racing suits are offered in single layer, 2-layer and 3-layer suits as well as drag racing suits. Try our lumbar stretch panels for added comfort and ease of movement. Our large selection of color choices allows for compatibility with sponsor requirements.

EACH MTO SUIT INCLUDES

- Custom fit with 14 different measurements
- Vertical quilt
- Choice of collar (banded, soft knit, wraparound)
- Zippered breast pocket on select styles
- Epaulets with Simpson logos included
- Name embroidered on front belt
- Inset front pockets
- Colored rib cuffs
(Red, White, Blue or Black)
- SFI tags included where mandated

Available Features

The suits pictured in our custom suit section are here to show you the multitude of style and material options that are available. When you see the Custom logo next to a racing suit, the product is available in custom colors and features. You are not limited by any of these designs in any particular suit style. Design your own suit with the available features below. However, if you like a particular design that you see, call 888-872-SUIT (7848), and our customer service staff will assist you. Or design online at teamsimpson.com.

CUSTOM DNA

The DNA suit combines industry changing innovations and advanced design in a suit that offers almost no restrictions to movement, unbeatable breathability and incredibly lightweight fabric. This game changing suit is constructed to meet the needs of our athletes on the track and loaded with features available only at Simpson.

THE PACKAGE INCLUDES

SFI.5 approved Titanium Nomex® racing suit, Made in the USA

Integrated cuffs replace traditional sleeve cuffs, minimizing material at your wrist and eliminating bunching in the glove gauntlet area

X-Tech stretch elbows allow for effortless movement of the arms, helping with fatigue and stopping the sleeve from migrating up the arm

X-Tech stretch body panels reduce tension across the back, torso, waist, hips and thighs

Stretch panels offer improved ventilation in key area of the body

Stylish outside pockets lay flat to eliminate bunching and require less material

Embroidered trim adds style without adding unwanted weight

LIGHTWEIGHT AND NON-RATED FULLY SUBLIMATED CUSTOM SUIT

IDEAL FOR KARTING OR PHOTOGRAPHY

Simpson's Non-FR Suits offer the professional look you want both on and off the track. By sublimating directly onto the fabric, we can offer a lightweight suit with endless color and design options. Sublimation reduces your cost by eliminating intricate embroidery. It is a vivid color process that will look as good at the end of the season as it did when you removed it from the box. Unlimited sponsor logos and lettering. Suit features: custom fit and tailored measurements, vertical quilt, choice of collar (banded, soft knit, wraparound), zippered breast patch pocket (not available for styles C/D/F/I/K/L), epaulets, name embroidery (standard type face on belt: Script), inset front pockets, and colored rib cuffs (Red, White, Blue, Black). Customer to supply vector artwork.

DNA SFI 5 RACING SUIT **NEW LOWER PRICE**

Become One Step Ahead of Your Competition With Today's Most Advanced Racing Suit customized in your team and sponsor colors and logos. See page 39 for custom DNA.

Our Popular DNA suit combines industry changing innovations and advanced design in a suit that offers almost no restrictions to movement, unbeatable breathability and incredibly lightweight fabric. This game changing suit is constructed to meet the needs of our athletes on the track and loaded with features available only at Simpson. The DNA suit combines industry changing innovations and advanced design in a suit that offers almost no restrictions to movement, unbeatable breathability and incredibly lightweight fabric.

FEATURES

SFI.5 approved Titanium Nomex racing suit, Made in the USA

Integrated cuffs replace traditional sleeve cuffs, minimizing material at your wrist and eliminating bunching in the glove gauntlet area

X-Tech stretch elbows allow for effortless movement of the arms, helping with fatigue and stopping the sleeve from migrating up the arm

X-Tech stretch body panels reduce tension across the back, torso, waist, hips and thighs

Stretch panels offer improved ventilation in key area of the body

Stylish outside pockets lay flat to eliminate bunching and require less material

Embroidered trim adds style without adding unwanted weight

COLORS

Red/White, Blue/White, Black/White

VIXEN II FEMALE RACING SUIT

We love the Vixen II redesign that offers SFI 3.2/5 protection in a comfortable and stylish suit designed to accentuate curves and move with the racer. We began with the finest fabric interior and Shiny Twill outer layer. The Vixen II provides maximum protection from burn situations while at the same time delivering style and attention to detail. The design curves smoothly along the body shape with strategic darts, providing less bulk and a sleek silhouette. The front pockets lay flat and special attention has been given to the bust, waist and hip area, offering a proportion that is both desirable and wearable to our female racers.

MOLECULE PERFORMANCE PRODUCTS

Molecule Car Cleaner removes road grime with ease, specifically addressing racing grime. Our detailer is easy to apply and quickly buffs to a glassy shine. Our fabric care products bond to Nomex® fabric to help repel flammable stains. Molecule Wash and Refresh keeps gear cleaner and safer by resisting contaminants that can degrade fabric performance. Protector sheds water, oils, fuels and dirt. Maintains fabric breathability. Fabric sunscreen reduces color fading caused by UV rays. Safe, water-based, patent pending formula. Visit www.teamsimpson.com for the complete line of Molecule Labs™ products.

BASED ON QUANTITY

The background of the image is a close-up, high-angle shot of a person's hands working on a mechanical assembly. The person is wearing a black and tan work glove with a red and black logo that says "SIMPS". The hands are positioned over a complex mechanical part, possibly a valve or a pump, which has various pipes, bolts, and a red label. The entire image has a strong orange-red color cast, giving it a warm, industrial feel. The text "GLOVES" is positioned in the upper right quadrant, and the main headline "GET AN ACCESSORY THAT'S A NECESSITY" is centered over the middle of the image.

CUSTOM GLOVE PROGRAM

You can order our Team Style SFI.5 certified glove with your own team logos and colors. See our stylish and functional Team Glove here. Our Team Glove features Nomex™ construction with silicone palm and touchpoints and outside seam construction.

COLORS

We offer multiple color choices. Contact us for details.

HOW IT WORKS

1. CHOOSE YOUR COLOR

Choose from the Nomex® constructed Black/White Team Glove. Featuring superior grip with silicone palm and touchpoints. This SFI certified glove is a popular choice for race teams.

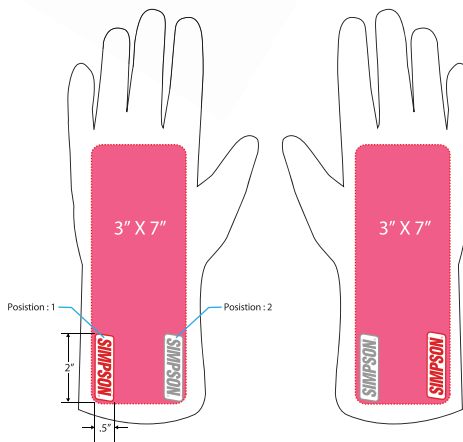

SIMPSON GLOVES
FEATURING
NOMEX
GLOVES

GLOVE IS SHOWN IN OPTIONAL CUSTOM COLOR, YELLOW.

2. CHOOSE YOUR LOGO POSITION

Place your logo/art in the 3" by 7" print area. Also choose Position 1 or 2 for the Simpson logo.

Large area for your artwork. Excellent position for camera exposure.

3. CHOOSE YOUR QUANTITY

Cost is based on your total quantity of pairs ordered with a unique print. Pricing is also based on the Simpson logo being on the glove. Removal of the Simpson logo will cost \$225 per pair with no quantity price breaks.

PAIR(S):	1 – 6	PRICE PER: \$195.00
PAIRS:	7 – 12	PRICE PER: \$185.00
PAIRS:	13 +	PRICE PER: \$175.00

4. CALL SIMPSON

CALL **1.888.872.7848** to place your order. You will be required to supply your custom, hi-resolution artwork.

OFFROAD D3 RESTRAINT

The Simpson D3 Buckle does what no other buckle system can do by providing the ease and convenience of a sewn-in harness without the shoulder straps being sewn to the lap belt. Its unique patented design eliminates the two shoulder strap links while still allowing the shoulder straps to be joined at the center of the buckle, truly emulating the V-Shape of a 5-Point Latch & Link System.

FEATURES

- Patented D3 buckle
- Anti-slip adjusters
- Polyester webbing, anti-submarine belt
- Available in 3" x 3" and 2" x 2"
- D3, Not SFI Rated

VORTEX

The Vortex seat provides high containment while still allowing for easy entry and exit with its cutaway lower bolster design. It is designed to work with the factory slider without raising the seat height. The Vortex's traditional tube-style frame is mated to a laser cut seat base which utilizes a variety of different modular mounting rails. Optional seat heaters and adjustable lumbar supports are available.

The Vortex model is available in 3 sizes:

1. Standard size
2. Wide Body (2" wider, Retail \$479.95)
3. Short Cushion (the base is 2" shorter front to back)

VORTEX REAR BENCH

The Vortex rear bench is completely bolt-in. It does not require any cutting or permanent modifications to install and utilizes a laser cut panel to replace the factory plastic console. The rear bench matches the styling of the new Vortex and can be ordered in colors that complement the factory front seat for those who do not want to replace the OEM front seats. Optional seat heaters and adjustable lumbar supports are available.

PRO SPORT

The all new Pro Sport was developed together with SDR Motorsports and engineered for superior fit, function, comfort and style all while keeping its mounting position as low as possible in the vehicle. The Pro Sport is 2" wider than our standard Vortex in key areas with extra broad shoulders for the ultimate comfort and containment. Its base is made up of our laser-cut universal pan design making it ideal for UTVs, Buggies, Jeeps and most all off-road vehicles. Optional seat heaters and adjustable lumbar supports are available.

XL-R

The XL-R was designed with the Jeep daily driver in mind with its reclining backrest and easy exit/entry bolster design. The reclining function allows you to fine-tune the comfort level and provides easy backseat access. Like all of our seats, the XL-R is a suspension seat and is built with the highest quality materials. The XL-R adds comfort, safety and style to any ride.

D3

The Simpson D3 buckle does what no other buckle system can. It provides the ease and convenience of a sewn-in harness without the shoulder straps being sewn to the lap belt. Its unique patented design eliminates the two shoulder strap links while still allowing the shoulder straps to be joined at the center of the buckle, truly emulating the "V" shape of a 5 point latch and link.

*To order a D3 harness with cadmium plated hardware, remove the "X" from the end of the part number. Shoulder speed adjusters are not available with cadmium plating.

90 DAY FINANCING PROGRAM APPLICATION

Simpson Performance Products provides our Racer Net customers a program to purchase an order of \$500.00 or more on a ninety day, no interest financing program, provided the terms and conditions of Simpson's finance program are agreed to and complied with by the customer.

FINANCING TERMS AND CONDITIONS OF SALE:

- 1 Simpson Performance Products will offer the customer a ninety (90) day, three (3) payment program with no finance charges on any order over \$500.00 to \$1,500.00. Orders over \$1,500.00 will be subject to credit approval.
- 2 The customer agrees to purchase the safety product and make a one-half (½) initial payment to Simpson, plus any applicable shipping charges and taxes. Sixty (60) days after the purchase date of the device, the customer makes a second one-fourth (¼) payment and to complete the transaction, ninety (90) days after the purchase date the customer makes a final one-fourth payment to Simpson.
- 3 The customer must purchase the products with a major credit card (Visa, Master Card, American Express or Discover) and agree to allow Simpson to make two (2) additional charges to the card for equal amounts for the remaining balance of the purchase on the second and third payments days (sixty (60) and ninety (90) days from the date of purchase). This will be an auto-transaction process, and each charge will appear on the customer's monthly statement on the corresponding billing month.
- 4 The customer will be charged a fifty dollar (\$50.00) service fee and a 1.5% monthly interest fee for any credit card charge that is not accepted due to an invalidated credit card status at the time of billing.

This program is at the complete discretion of Simpson Performance Products, and Simpson reserves the right to limit its implementation and to cancel the program without notice.

OFFER DOES NOT APPLY TO CUSTOM SUITS

Please fax the completed form to (830) 625-3269 or contact customer service at (800) 654-7223

RETURNS

Simpson warrants all product materials and workmanship when used according to the manufacturer's instructions. Warranty does not include damage to the product as a result of misuse, abuse of the product, or normal wear and tear. Simpson will provide a replacement part or product at its sole discretion. Purchaser must assume responsibility for the cost of shipping the product to Simpson for service or inspection. Should any product not meet your expectations for fit, workmanship and quality, please call **1-800-654-7223**. If you need to return a custom crew suit or crew uniform, please send to the following address:

Simpson Performance Products
1407 West 240th Street, Harbor City, CA 90710

NO REFUNDS ON MADE-TO-ORDER SUITS.

PRODUCT SERVICES AND RETURNS

If for any reason you would like to return a product you purchased or have a product you need serviced or inspected, ship it to Simpson via insured Parcel Post or UPS within 30 days. Please return new products in original condition, in the same boxes with a copy of the invoice to the following address:
