More than 65 years of innovation in the world's most demanding sport

It Takes A Lot to Finish First

To get there, you need an amazing combination of cutting-edge technology, seamless teamwork, proven skill, dedication and unwavering nerve. It also takes a good deal of precaution. As a company of first, Bell has never stopped the pursuit of serious head protection through innovation and a focus on the future. We were the first company to be Snell certified, introduce an energy absorbing liner system, build a full-face helmet, fire retardant helmet, aerodynamic helmet, anti-fog shield and homologate an FIA 8860 "super helmet". That same forward thinking defines everything we do and is exhibited in every high-performance racing helmet we build. Delivering the ultimate in protection, innovation, technology and reliability, it's no wonder why more champions have proudly worn Bell Helmets than any other brand.

Time Tested, Champions Trusted

For over 65 years, our commitment to innovative design and progressive approach to safety has defined Bell Racing. That same attention to detail continues today throughout our entire line of products making each Bell helmet unique and worthy of being worn by the world's best drivers. The latest generation of Bell Racing helmets offer forward-thinking design, leading-edge technology, superior engineering, outstanding comfort and fit, enhanced ventilation and industry leading features with the latest material innovations and manufacturing techniques to create the most advanced line of racing helmets available in the world today.

At Bell, we know racing and we know it is a serious business. For CIRCUIT racing, we offer a complete line of FULL FACE helmets, from the Advanced HP77 chosen by a majority of Formula One drivers to the GT5 Sport, the helmet of choice for occasional racers.

Some models are declined in various versions:

- The Advanced Series helmets (HP) use ultra-lightweight aerospace grade carbon shell combined with a high-performance multi-density energy absorbing liner system delivering the ultimate protection. They are the pinnacle of technology and innovation, representing the best of Bell.
- The Carbon Series helmets feature a lightweight carbon shell and deliver the best performance to value ratio in motorsport.
- The Pro Series helmets, with their lightweight composite shell, are designed for drivers at all levels of racing who expect industry-leading performance, professional features and the latest engineering advances.
- The Sport Series helmets are intended for amateur racers who do not want to compromise on safety and comfort.

FULL FACE HELMETS
CIRCUIT

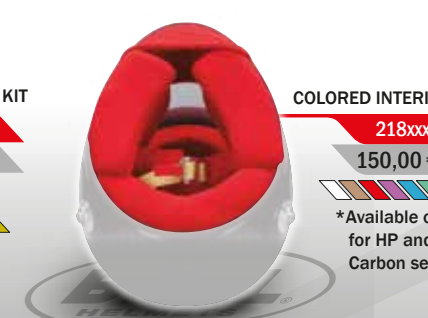

The HP77 is based on Bell's highly successful and multiple F1 World Champion proven HP7 design. Chosen by a majority of top professional open cockpit racers, the HP77 provides the most advanced protection, featuring a very narrow eyeport on top of which high strength ballistic materials have been incorporated. Following a long tradition of innovation, the HP77 was the first helmet to meet the latest FIA8860-2018-ABP standard. It is renowned for its lightweight, aerodynamic qualities, superior cooling and amazing defogging system for the intense demands of open-cockpit forms of racing in all types of weather. The HP77 is homologated to the FIA8860-2018 ABP standard, the most rigorous sport helmet standard on the planet, designed for professional formula racers competing at the highest levels of the sport.

- Full face helmet featuring High-strength and High-modulus carbon fibres ultra-lightweight FIA8860-2018 ABP shell
- Very narrow eyeport
- Frontal area with integrated ballistic materials for added protection from flying debris
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) shield for anti-fog control and superior visibility
- Powerful and effective top and chin bar ventilation system with 12 air intake and extraction channels for maximum ventilation
- Air intake system includes two part centre and low profile on sides (installed)
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities
- Integrated channels in face piece offering multiple options to install drink tube and communication systems
- Top spoiler, top and chin bar gurneys available separately
- Factory installed Hans anchors as original equipment
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- HP helmet bag included
- Shield and pivot kit: SE077 3MM, SV(SE07)
- Interior: Dark Grey High Strength - High Comfort FR Fabric
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green and Neon Yellow (on special order)
- Color: Carbon, Matte finish
- Sizes: 54-55-56-57-58-59
- Homologation: FIA8860-2018 ABP

THE BEST DRIVERS WEAR BELL HP77

BELL F1 AMBASSADORS

Developed through close collaboration with leading F1 drivers and teams, the carbon fiber HP7 is aerodynamically sleek, lightweight and efficient for the intense demands of all forms of racing. Meeting FIA8860-2018 "Advanced Helmet" standard, the HP7 is also equally popular amongst professional drivers in open-cockpit cars and closed Sports cars and GT cars, thanks to its very high level of comfort. For professional drivers competing in high-speed forms of motorsports, the HP7 allows racers to take advantage of the latest technological innovations including aerospace composite materials and advanced energy absorbing liner systems.

- Full face helmet featuring High-strength and High-modulus carbon fibres ultra-lightweight FIA8860-2018 carbon shell
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) visor for anti-fog control and superior visibility
- Powerful and effective top and chin bar ventilation system with 12 air intake and extraction channels for maximum ventilation
- Air intake system includes two part centre and low profile on sides (installed)
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities
- Integrated channels in face piece offer multiple options to install drink tube and communication systems
- Top spoiler, top and chin bar gurneys available separately
- Factory installed Hans anchors as original equipment
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- Available in two versions: with or without duckbill (chin spoiler)
- Available with frontal chinbar hole for the introduction of the drinking tube (optional special order)
- HP helmet bag included
- Shield and pivot kit: SE07 3MM, SV(SE07)
- Interior: Dark Grey High Strength – High Comfort FR Fabric
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green and Neon Yellow (on special order)
- Color: Carbon, Matte finish
- Sizes: 54-55-56-57-58-59-60-61-61+

HP HELMET BAG
 INCLUDED

Based on the innovative HP7 design and featuring an ultra-lightweight carbon shell, the RS7 Carbon provides racers with unmatched acoustic comfort, aerodynamic performance and energy absorbing capacities. The sleek, aerodynamic design features an advanced ventilation system with 14 air intake and extraction channels for maximum airflow and ventilation.

- Ultra-lightweight Premium Carbon Composite shell
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) visor for anti-fog control and superior visibility
- Powerful and effective top and chin bar ventilation system with 14 air intake and extraction channels for maximum ventilation
- Air intake system includes two-part centre and side air intakes (installed)
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities
- Integrated channels in face piece offer multiple options to install drink tube and radio systems
- Rear spoiler, top and chin bar gurneys available separately
- Top air attachments available separately
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- Factory installed Hans anchors as original equipment
- Shield and pivot kit: SE07 3MM, SV(SE07)
- Interior: Dark Grey High Strength – High Comfort FR Fabric
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green and Neon Yellow (by special order)
- Available in two versions: with or without duckbill (Chin spoiler)
- Color: Carbon, Gloss finish
- Sizes: 54-55-56-57-58-59-60-61-61+

RS7 CARBON
 DUCKBILL

Based on the HP7 design and featuring a lightweight carbon fiberglass composite shell, the RS7 uses an innovative shell and shield design to improve acoustic comfort, aerodynamic performance, and energy absorbing capabilities. The sleek, modern design features an advanced ventilation system with 14 air-intake and extraction channels that can be used with or without air-intake (available separately). The RS7 double screen anti-fog (DSAF) visor and rubber gasket seal ensure air, water and dust will not enter in the eyeport.

- Lightweight Premium Carbon Fiberglass Composite shell
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) visor for anti-fog control and superior visibility
- Powerful and effective top and chin bar ventilation system with 14 air intake and extraction channels for maximum ventilation
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise, and enhance energy management capacities
- Integrated channels in face piece offering multiple options to install drinking tube, valves and radio systems
- Factory installed Hans anchors as original equipment
- Air Intake, side air extractors, rear spoiler, top and chin bar gurneys available separately
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- Interior: Dark Grey High Strength - High Comfort FR Fabric
- Shield and pivot kit: SE07, SV(SE07)
- Color: White or Matte Black
- Available as well with exciting and trendy Graphics and Matte finish:
 - o Stamina Red
 - o Stamina Grey
- Sizes: 54-55-56-57-58-59-60-61-61+
- Homologation: FIA8859-2015 & SNELL SA2020

RS7 PRO STAMINA

1310Axx

800,00 €

SIZES: 54 TO 61+

Stamina:

“The ability to sustain prolonged physical or mental effort”

A name synonymous with Force. Strength with great impact. The overall design of the helmet represents this strength and vigor with sharp and angular shapes, combined with a modern and geometric aesthetic.

- Same characteristics as RS7 PRO with attractive colour design
 - o Stamina Red
 - o Stamina Grey
- Sizes: 54-55-56-57-58-59-60-61-61+
- Homologation: FIA8859-2015 & SNELL SA2020

MANUFACTURER: BELL RACING HELMETS
 MODEL: RS7-20
 HOM. NO: PH.082.20-C
 FIA STANDARD: 8859-2015

Incorporating technology used in our state-of-the-art HP7 Advanced Helmets, the HP6, with its modern and aggressive design, has been developed for racers in closed-car environments, featuring a wide eyeport for extended vision with an ultra-lightweight Advanced carbon shell. Its ventilation slots can be connected to various types of air intakes for external cooling systems. It can be fitted with optional ear-muffs providing optimal noise insulation, with fully integrated radio communication kit and hydration systems (available separately or in RD version).

- Ultra-lightweight FIA8860-2018 Advanced full carbon shell
- Wide eyeport opening for optimal vision in closed cockpit cars (Shield type SE06)
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Integrated channels in face piece offering multiple options to install drinking tube, valves and radio systems
- Extraction vents to maximize cooling and air circulation
- Factory installed Hans anchors as original equipment
- Optional Top and Side air intakes available for use with external cooling system
- Optional side-cover (L or R) for smooth integration of radio connectors and hydration system
- Optional Ear-Muffs for increased noise insulation
- HP helmet bag included
- Interior: Dark Grey High Strength - High Comfort FR Fabric
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green and Neon Yellow (by special order)
- Color: Carbon, Matte finish

HP6

HP HELMET BAG INCLUDED

Optional Earcups
Providing increased noise insulation
Available for HP6 and 6 series

- Same characteristics as HP6 with fully integrated radio communication kit and hydration systems.
- ZeroNoise® noise cancelling microphone integrated in face piece
- Coil style (curly cable) with heavy duty In-Molded Male Nexus Connector (4 pins)
- RCA connector compatible with Earplug Transducers (Various types of ZeroNoise® Transducers available as accessory)
- Hydration system (drinking tube)

NEW

DRINKING TUBE KIT

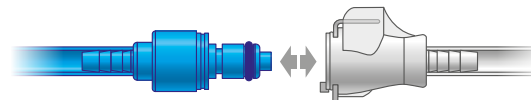

The integrated drink tube kit includes flexible tubing, L shaped adaptor to properly position the mouth bite valve and a one-way valve for drinking systems. This allows for seamless integration without modifying the face piece or drilling holes in the helmet chin bar (bite valve and drinking system not included).

- RCA connector compatible with Earplug Transducers

- 1/8 Hose Barb Valved In-Line Coupling Body fast connector

HP6 RD

MICROPHONE KIT RCA-CINCH

Bell's 4 connector radio helmet kit features a dynamic noise cancelling microphone pre-wired and integrated into the helmet's face piece and optimized to work with industry standard radio systems. The kit includes a coil style cord and ready for use with "in-ear" transducers (ear buds) fitted with RCA-CINCH Female Connector.

Derived from HP6, the GT6 CARBON features the same modern and aggressive design, developed for racers in closed-car environments, featuring a wide eyepoint for extended vision with an ultra-lightweight Premium carbon shell. Its ventilation slots can be connected to various types of air intakes for external cooling systems. It can be fitted with optional ear-muffs providing optimal noise insulation, with fully integrated radio communication kit and hydration systems (available separately or in RD version).

The versatile GTX3 Carbon, used extensively on dirt race tracks around the globe provides industry-leading performance and is a perfect choice for racers competing in open wheel forms of motorsports, specially dirt-track forms of racing. Featuring an ultra-lightweight carbon shell, integrated rear spoiler for enhanced aerodynamic performance at higher speeds, venturi air-exchange system, and double screen anti fog (DSAF) shield, the GTX3 Carbon is ideal for dirt track and other challenging forms of racing.

- Ultra-lightweight Premium Carbon Composite shell
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) visor for anti-fog control and superior visibility
- Rear-facing side chin bar vents and air extraction vents create a venturi-effect to minimize dirt and dust entering the helmet while maximizing air exchange
- Integrated carbon look rear spoiler for enhanced aerodynamic performance
- Integrated channels in face piece offer multiple options to install drink tube and radio systems
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- Factory installed Hans anchors as original equipment
- Shield and pivot kit: SE03 3MM, SV(SE03/SE05)

Rally is one of the most challenging racing sports, putting cars and drivers through the toughest and the most varied conditions. To face all these challenges, Bell Helmets and Zeronoise, the electronic division of our group, developed a completely new line of sophisticated rally helmets with the help of top professional rally drivers and teams. Our new rally helmets deliver premium quality and high performance features such as lightweight composite shell, superior comfort and fit, ultra-high quality intercom systems, noise reducing ear protections, soft ear cups combined with ultra-thin and powerful speakers, advanced styling and of course, optimal protection.

RALLY

The new HP10 Rally incorporates the advanced technology of our HP7 state-of-the-art Advanced Helmets in a sleek and modern design that provides the ultimate performance open-face rally helmet. Featuring an ultra-lightweight carbon shell combined with a Fast Removable Half Chin Bar (HCB), adjustable carbon fiber peak, brand new adjustable and integrated sunscreen, highly comfortable professional fit combined with outstanding sound-insulation, HP10 Rally is the new reference for rally drivers and co-drivers looking for the ultimate product. Our helmet R&D engineers worked day and night with sound engineers and top rally drivers to deliver a helmet that would set new standards! No effort was spared to obtain outstanding performances of sound insulation and communication efficiency, incorporating ZeroNoise® electronics, high power speakers and noise cancelling microphone, and to deliver the best experience in terms of safety, comfort and communication.

- Open face helmet featuring ultra-lightweight FIA8860-2018 Advanced full carbon shell
- Fast Removable Carbon Half Chin Bar (HCB) quickly and easily detachable to ensure fast access to breathing ways without the need to remove the helmet in case of emergency
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Adjustable carbon sun peak
- Adjustable integrated anti-scratch sunscreen: ML Red mirror (M10S) fitted as original equipment + dark smoked (M10S) supplied in the box
- Removable cheek pads with multi densities advanced materials for optimal comfort
- Flexible yet sound insulating integrated ear muffs for comfort combined with sound insulation
- ZeroNoise® electronics, high power (yet lightweight) speakers and adjustable efficient noise cancelling microphone integrated in Half Chin Bar
- Ultra-reliable heavy duty In-Molded Female Nexus Connector (compatible with other brands of amplifiers)
- Detachable right side-cover for smooth integration of the Female Nexus Connector
- Flat right side carbon cover supplied in the box, for those who prefer using a straight cable coming out of the helmet instead of the integrated connector
- Air extraction holes to maximize cooling
- Factory installed Hans anchors as original equipment
- HP helmet bag included
- Interior: Dark Grey High Strength - High Comfort FR Fabric
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green and Neon Yellow (by special order)
- Adjustable sunscreens available as accessories in various colors and TWO lengths to ensure optimal visual comfort
- Color: Carbon, Matte finish
- Sizes: 54-55-56-57-58-59-60-61-61+
- Homologation: FIA8860-2018

MAG-10 RALLY PRO

FOCUS ON

RADIO KIT

- Ultra-reliable heavy duty In-Molded Female Nexus Connector (compatible with other brands of amplifiers)

- ZeroNoise® electronics, high power (yet lightweight) speakers and adjustable efficient noise cancelling microphone.

EARCUPS SPACER FOAM

Foam Spacers can be positioned behind the soft earcups to obtain the right level of pressure and insulation.

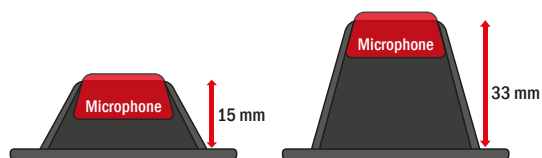

The kit with thicknesses (10 mm) is included in the box.

ADJUSTABLE MICROPHONE

The adjustable microphone pieces with different sizes allow a perfect fit of the microphone right in front of the mouth.

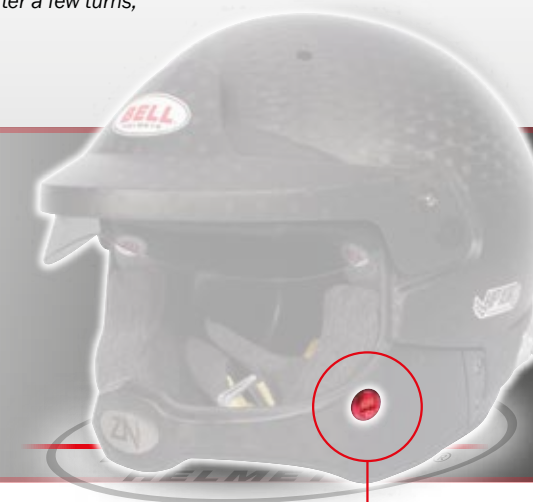

We include two kits with different thicknesses in the box. 15 mm and 33 mm.

HALF CHIN BAR EMERGENCY FAST REMOVAL

The HP10 Rally, Mag-10 Rally Carbon and Mag-10 Rally Pro feature an innovative and unique patented system, allowing to disconnect the half chin bar from the helmet very easily and quickly, without the use of any tools. In case of accident, this unique feature allows the doctors and paramedics to immediately access the breathing ways of an injured driver, without having to remove the helmet.

Simply lift the tab, and unscrew the tool-less red screw; once the screw is undone after a few turns, gently pull the half chin bar and that's it!

FLAT SIDE COVER

Ultimate connection flexibility: The HP10 Rally, Mag-10 Rally Carbon and Mag-10 Rally Pro are delivered with a side cover integrating the Nexus female connector. For those wanting the connector hanging on a loose cable, the connector side cover can easily be replaced with a flat cover. Flat right side cover supplied in the box.

Based on the HP10 Rally, the MAG-10 RALLY CARBON is a sophisticated, ultra-lightweight Premium Helmet in a sleek and modern design that provides a high performance open-face rally helmet. Featuring an ultra-lightweight carbon composite shell combined with our Fast Removable Half Chin Bar (HCB), adjustable carbon fiber peak, brand new adjustable and integrated sunscreen, highly comfortable professional fit combined with outstanding sound-insulation, MAG-10 RALLY CARBON is the new helmet of choice for rally drivers and co-drivers looking for a high-end Premium product. Benefiting from the extensive Research & Development program undertaken for the HP10, the MAG-10 RALLY CARBON sets new standards in the Premium Helmets category! No effort was spared to obtain outstanding performances of sound insulation and communication efficiency, incorporating ZeroNoise® electronics, high power speakers and noise cancelling microphone, and to deliver the best experience in terms of safety, comfort and communication.

- Open face helmet featuring ultra-lightweight Premium carbon composite shell

Karting is a very demanding discipline in a sometimes difficult environment. All our karting helmets are directly derived from our Formula One helmets and benefit from their key characteristics adapted to karting thanks to our collaboration with the best drivers: lightweight products, great comfort, exceptional ventilation and aerodynamics and unequalled defogging system to deliver no less than the ultimate protection and the ultimate performance.

RS7-K SERIES

KC7-CMR SERIES

THE BEST KARTING DRIVERS WEAR BELL

KARTING

Purpose-built for the hard-charging kart racer, the RS7-K Carbon is the karting-only version (non-fire retardant, extra durable interior) of the RS7 series. Based on the HP7 design and featuring a lightweight carbon composite shell, the RS7-K Carbon uses an innovative shell and shield design enhancing aerodynamic performance and energy absorbing capacities. The sleek, modern design features an advanced ventilation system, double screen anti-fog (DSAF) shield and a rubber gasket seal ensuring that water does not enter the eyeport in rain conditions.

- Ultra-lightweight Premium Carbon Composite shell
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance
- Optical grade injected Double Screen Anti-Fog (DSAF) 3MM visor for anti-fog control and superior visibility
- Powerful and effective top and chin bar ventilation system with 14 air intake and extraction channels for maximum ventilation
- Air intake system includes two-part centre and side air intakes (installed)
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities
- Rear spoiler available separately
- RS7-K Carbon is NOT compatible with FHR anchor systems or devices
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet
- Shield and pivot kit: SE07 3MM, SV(SE07)
- Interior: Non-fireproof lining for extra durability
- Black High Strength - High Comfort Fabric and synthetic leather

SERIOUS HEAD PROTECTION

Offshore and Powerboat racers are close family to car racers. It is therefore only logical that Bell offer a line of helmets readily available in the mandatory characteristic bright orange colour. For those offshore and powerboat racers looking for a specific car racing model, Bell also offer a custom painting program enabling them to order any Bell Racing helmet in bright orange colour.

SIZES: S-M-L-XL

The Bell tradition of building high-quality open face helmets with classic styling inspired by the original Bell 500 TX lives on in the MAG-1 Offshore. Designed for racers who enjoy the feel of a classic open face helmet, the MAG-1 Offshore delivers value and quality at an affordable price.

- Open face helmet featuring carbon-glass composite shell
- Advanced multi-density, multi piece liner to maximize energy absorption and impact performance
- Adjustable sun peak with antiglare sunscreen
- Color: Orange
- Sizes: S, M, L, XL
- Homologation: FIA8859-2015

MANUFACTURER: BELL RACING HELMETS
 MODEL: MAG-1*

NOZZLES

MAGLOCK

Inspired by the dust and heat of Baja, Maglock Air is a revolutionary way to connect racers helmets to their forced air systems. At the heart of this innovation, a machined magnet creates a solid, air tight sealed bond between air hose and helmet using 30 lbs of magnetic tensile force. Solid enough to endure the roughest rides, the connection can be easily broken by a single hand and small amount of pressure when disconnecting from an oblique angle for a "quick-release" extraction. Designed for fast driver changes and quick exit from a racing vehicle, Maglock is the latest innovation in racing safety and performance.

DRINKING TUBE KITS

The integrated drink tube kit includes flexible tubing, L shaped adaptor to properly position the mouth bite valve and a one-way valve for drinking systems. This allows for seamless integration without modifying the face piece or drilling holes in the helmet chin bar (bite valve and drinking system not included).

The new drinking tube has the same features as the standard drinking tube and incorporates a new quick connect valve that allows one-handed connection and disconnection.

HELMET & GEAR BAG

Extra large helmet bag designed for storage of helmet, Hans device and a few other accessories. The bag also has 3 external storage pockets and a foam inner liner to better protect the helmet.

Dimensions: 41 x 56 x 36 cm

2120003 80,00 €

DRAWSTRING HELMET BAG

Bell's plush fleece lined helmet bag will offer additional protection and is a great way to store your helmet when you are not racing.

Dimensions: 44 x 31 x 30 cm

2120011 12,00 €

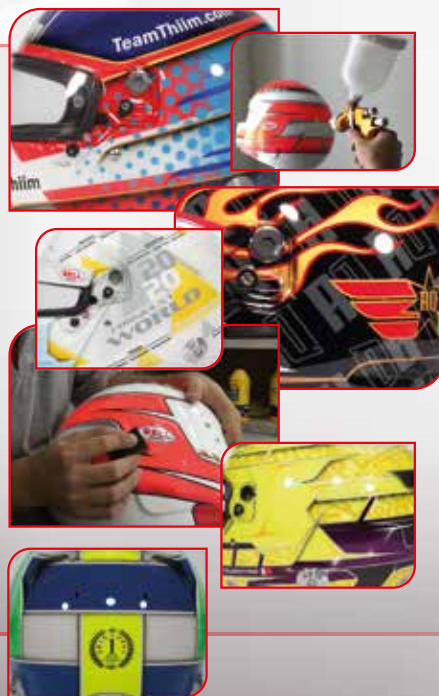

FACTORY CUSTOM PAINTING SERVICE

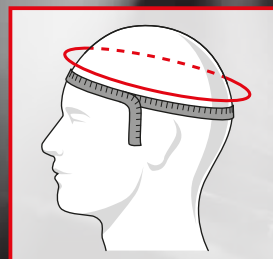

Bell Racing offers factory custom painting with the guarantee that the painting will not affect the original protective qualities of the helmet. Each painted helmet comes with an official certificate, proving its conformity with the FIA safety regulations.

Our experience over the past years in painting the helmets of F1 and other professional drivers enables us to reproduce almost every possible design and colours.

HOW TO FIT A HELMET
1. POSITIONING THE HELMET ON YOUR HEAD

Put the helmet on by grasping the chin strap halves in each hand and pull the helmet on over your head.

2. FITTING THE HELMET

When properly positioned, the helmet should be worn low on the brow eyes, near the center of the eye opening, touching the top of the head with uniform and firm pressure all around – tight without excessive pressure points.

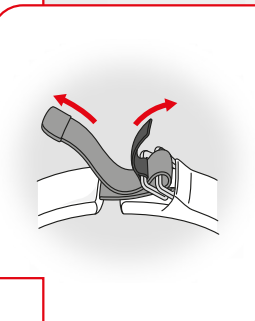

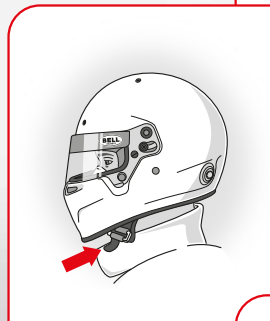

To fasten the chin strap, thread the end of the strap through both d-rings, loop the strap end back through the inner d-ring and pull it comfortably tight against the throat. Make sure the chin strap is snug against the throat.

⚠ WARNING CORRECTLY USING THE CHIN STRAP

A good fit and a properly fastened chin strap are all that keep the helmet on your head during an accident. Make sure the chin strap is correctly fastened and pulled snugly up against your throat each time you wear your helmet.

3. CHECKING THE FIT

Correctly position the helmet on your head and stand in front of a mirror. Gently rotate the helmet first from left to right and then from front to back. If the skin on your brow moves with the helmet as it is rotated, the fit is proper. If the skin on your brow does not move when the helmet is rotated in either direction, the fit is too loose. Try various sizes until you find one that fits correctly. With the helmet properly positioned, and the chin strap fastened, try to remove the helmet from your head. Grasp it securely and make a serious effort to roll it off your head in both the forward and backward directions. If you can remove the helmet or are able to roll the helmet backward far enough to expose your forehead or forward far enough to block your vision, the helmet either fits too loosely or the straps are not properly adjusted.

If the helmet is too large or if you can still remove the helmet, DO NOT use it and replace with a smaller size.

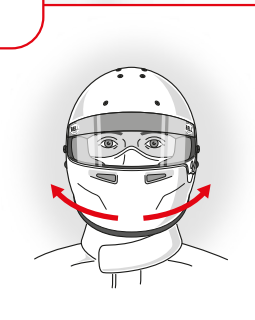

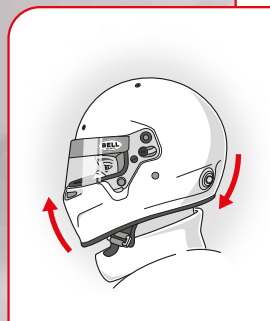

Repeat steps 1 through 3

If you cannot remove the helmet and it does not roll either backward far enough to expose your forehead or forward far enough to block your vision, you have a proper fit. We recommend fitting the helmet with a head sock or balaclava if you intend to wear one in competition.

4. TEST DRIVE

Steps 1 through 3 are critical to getting the most out of your helmet. Spend as much time as necessary to satisfy yourself that you have a good fit. Only after successfully completing steps 1 through 3, put on your helmet and wear it for an extended period or take a test drive. If the helmet feels comfortable, remaining firmly in place and the straps remained properly adjusted, your helmet is ready to use. If the helmet feels uncomfortable or moves excessively, go through steps 1 through 3 as necessary to correct the problem. If you are unable to successfully complete all 3 steps, or if the helmet does not fit and feel comfortable, DO NOT continue to use the helmet. Either: Return to the dealer for assistance, or contact Bell Racing for further instructions.

Do not use chin cups or wear the strap on the point of the chin. This will increase the risk of the helmet coming off in an accident.

SERIOUS HEAD PROTECTION

ZN

ZERONOISE

BELL has now a top-level brand for electronic devices: ZERONOISE.

ZN is a young group of people who have already gained a high end experience in motorsport, and have now joined us to create the best range of audio and video products at the service of racing people.

The skills of BELL, OMP and ZN combined in teamwork are the best guarantee for the quality of electronic design, mechanical design, testing and production of these devices.

ELECTRONIC DEVICES ZERONOISE

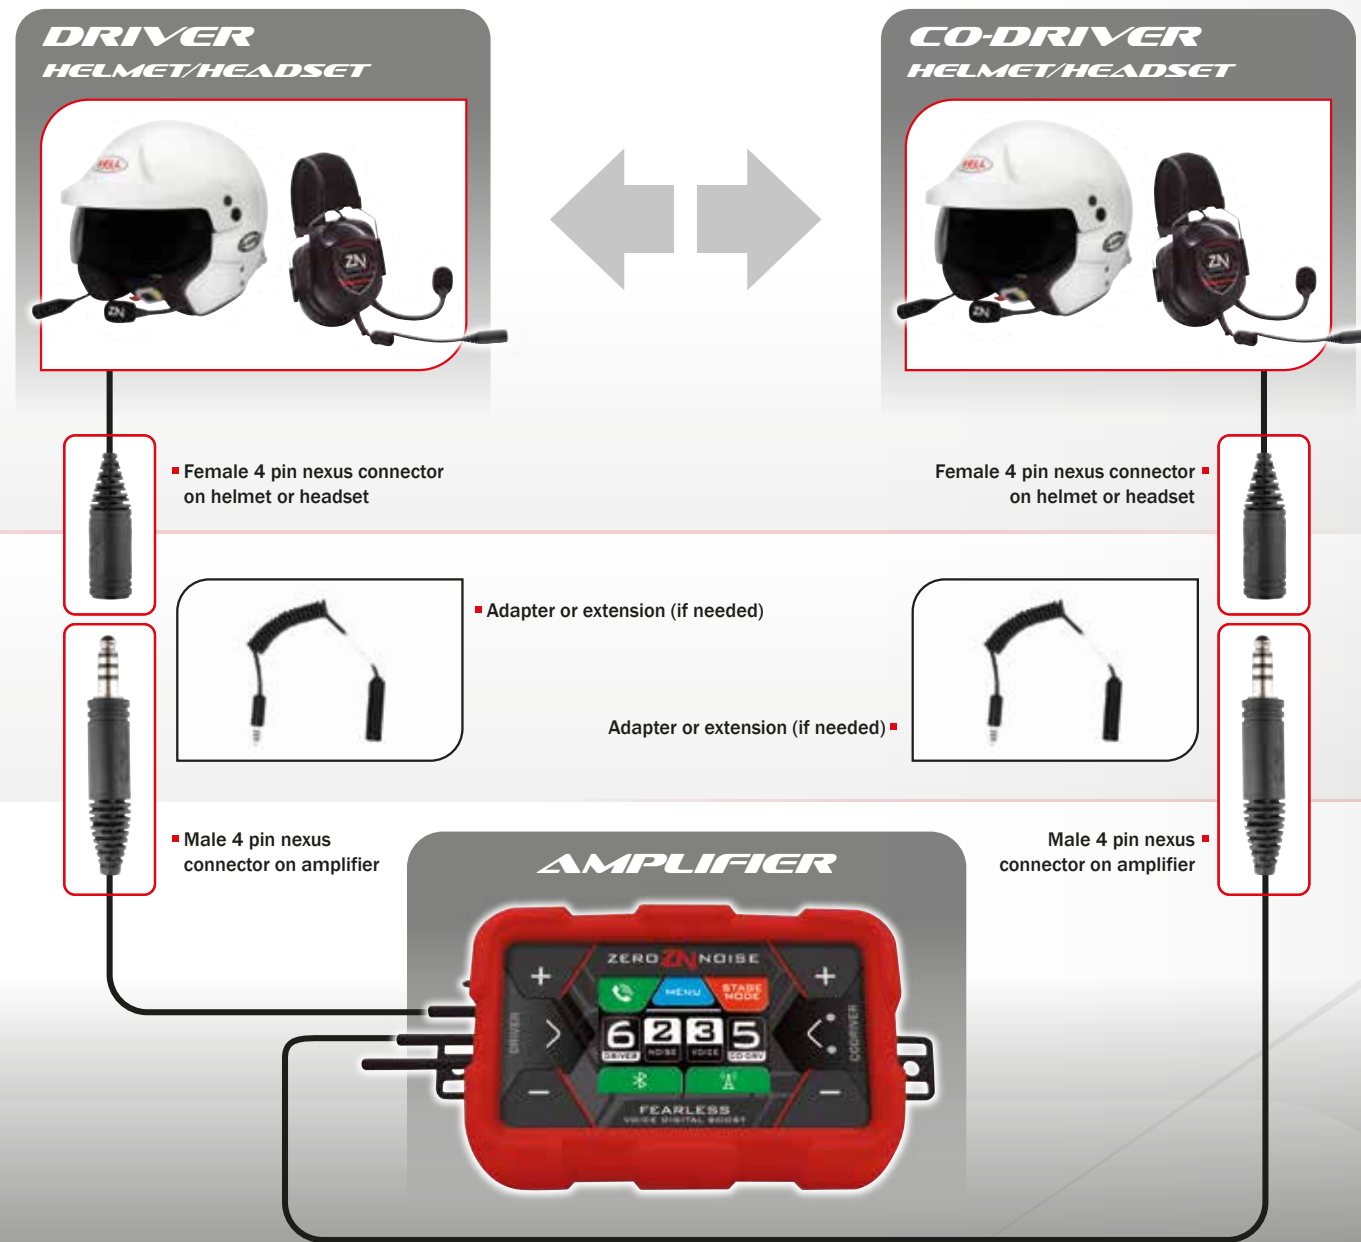

The Rally communication systems support communication between driver and co-driver with extensive power and noise canceling. It also allows radio connection, Bluetooth connection, as well as camera car.

COMPONENTS

- Amplifiers
- Headsets
- Helmet radio kits
- Extension and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)

SYSTEM ARCHITECTURE

Male 4 pin nexus connector on amplifier, female 4 pin nexus connector on helmet or headset.

Communicate between the car and the pit with a standard phone call, through a professional intercom system. PIT LINK allows you to connect up to two people in the car, as well as more cars and more people at the pit by using the conference call function the smartphone.

COMPONENTS

- Pit link GSM amplifier
- Helmet radio kits
- Headsets for driver or co driver
- Extension and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)
- Headset for Pit Link
- Button for call

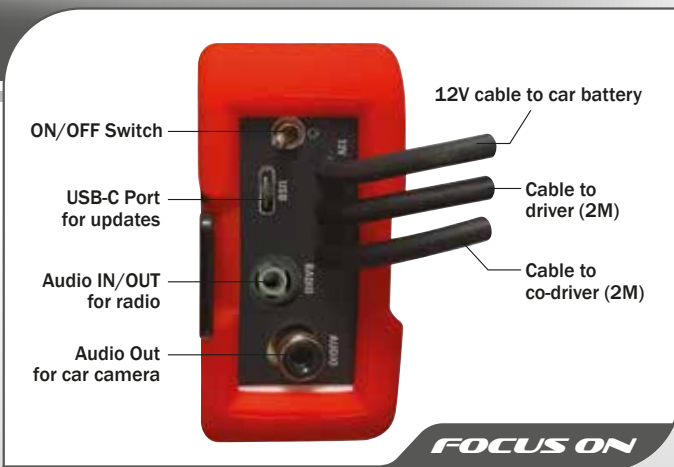

SYSTEM ARCHITECTURE

Female 4 pin nexus connector on amplifier, male 4 pin nexus connector on helmet or headset.

FEARLESS is the ZERONOISE DIGITAL amplifier at his second release after further development in 2020 with an unprecedented adaptive noise cancelling and sound comfort. Electronic, look, and usability, make it the finest digital intercom in the market. A state of the art digital processor performs the active noise cancelling and further sound settings are available. The display in combination with the multifunction buttons, makes FEARLESS intuitive to use. FEARLESS' modern design is enhanced by the anti shock and anti vibration silicon cover. It is compatible with any helmet intercom kit with Nexus connectors, although the system delivers best performances with the ZERONOISE intercom kit range. It is fully compatible with all ZERONOISE INTERCOMS KIT/HEADSET.

- Digital active noise filtering
- Multifunction touch display (It works with gloves)
- Bluetooth
- Anti shock, anti vibration silicon cover
- USB-C Port
- Audio Out for car camera
- Audio IN/OUT radio connection
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard
- Available with three different connectors:
 - o Male 4 PIN Nexus
 - o Female 4 PIN Nexus
 - o Female 4 PIN Nexus (comp. IMSA)

INTREPID is the ZERONOISE professional analog amplifier that has been further developed in 2020 to provide more sound comfort and efficiency. The electronic has been completely re-engineered to deliver a state of the art sound quality thanks to the new amplification and noise filters. The result is clear voice and minimum background noise. It also comes with a central switch to select three noise filters. INTREPID's modern design is enhanced by the anti shock and anti vibration silicon cover. It is compatible with any helmet intercom kit with Nexus connectors, although the system delivers best performances with the ZERONOISE intercom kit range. It is fully compatible with all ZERONOISE INTERCOM KITS/HEADSETS.

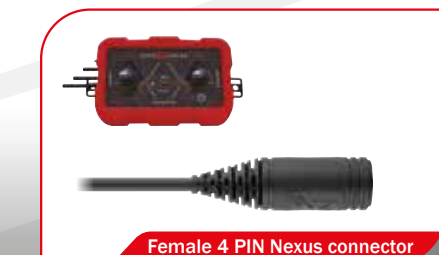

- Three professional noise filters
- Efficient amplification for long battery life
- Anti shock, anti vibration silicon cover
- Audio Out for car camera
- Dual volume adjustment
- ON/OFF led light
- 9V Internal battery
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard
- Available with three different connectors:
 - o Male 4 PIN Nexus
 - o Female 4 PIN Nexus
 - o Female 4 PIN Nexus (comp. IMSA)

BRAVE is ZERONOISE analog amplifier with a unique value for money. Its brand new amplification delivers a clean sound with the likes of professional intercoms and endless power. It also features a 12v power cable to connect BRAVE to the car battery and a car camera RCA socket. It is fully compatible with all ZERONOISE INTERCOM KITS/HEADSETS.

- Analog noise filter
- Efficient amplification for long battery life
- Anti shock, anti vibration silicon cover
- Central volume adjustment
- ON/OFF led light
- Audio Out for car camera
- 9V Internal battery and 12V power cable
- Easy fix system on roll bar or dashboard
- Available with three different connectors:
 - o Male 4 PIN Nexus
 - o Female 4 PIN Nexus
 - o Female 4 PIN Nexus (comp. IMSA)

GSM (INTERNAL SIMCARD) DIGITAL AMPLIFIER. Connecting Car to Pit via GSM (standard phone call over 3G network). It allows professional communication between two people in the car and the Pit at the same time. Communication can open up automatically or via PTT. The amplifier connects more cars and/or more people at the pit via smartphone conference call functions. Noise and voice can be digitally set to fine tune noise canceling and voice. Software updates through USB-C port.

 PIT-LINK comes also in Bluetooth version. Any phone can connect to the amplifier regardless of the network type (2G,3G,4G, etc). This version is suggested for those who are or will travel to countries where voice over 3G is not supported.

- Digital noise filtering
- Display to enhance usability
- Anti shock, anti vibration silicon cover
- Audio out for car camera
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard
- Available with three different connectors:
 - o Male 4 PIN Nexus

KARTING COMM SYSTEM

WEARABLE AMPLIFIER

6100015

150,00 €

PIT-LINK TRAINER is the micro amplifier designed and constructed to be the perfect communication tool for karting. PIT-LINK TRAINER is a Bluetooth Digital Amplifier that allows to communicate with the pit during a training session. You can wear it around your neck and keep it inside your suit. The digital noise cancelling makes the communication smooth by compressing the kart noise. Communication is automatically on when the phone call is coming through. No need to press anything. The pit crew will connect to the driver through a normal phone call. PIT-LINK TRAINER requires PIT-LINK MICROPHONE KIT and PIT-LINK EARPLUGS to be setup in the helmet.

SPECIAL FOR KARTING

- Micro Amplifier
- Super Fast Bluetooth
- Advanced Noise cancelling
- USB Port (Type C) for recharging
- Independent volume
